Education

Guru Ghasidas Vishwavidyalaya, Bilaspur(C.G.) (A Central University)	**Aug. 2020 – May 2024**
Bachelor of Technology in Computer Science and Engineering	*9.31/10 (till 6th semester)*

Jawahar Navodaya Vidyalaya ,Bikram(Patna)	**July 2017 - May 2019**
intermediate of science	*92.6*

Work Experience

KPMG   **July 2023 - July 2023**

Data Analytics Consulting Virtual Internship

- Enhanced data quality and completeness, optimizing it for insightful analysis
- Strategically targeted high-value customers by leveraging customer demographics and attributes
- Transformed complex data into compelling visualizations, effectively communicating key insights

IBM SkillsBuild   **Dec 2022 - Dec 2022**

Artificial Intelligence

- Pioneered sustainable solutions, conducting comprehensive comparative analysis.
- Masterfully engineered a Convolutional Neural Network model
- Achieved excellence in crafting a high-accuracy Human Activity Recognition model using the I3D CNN architecture

Achievements

- Certified well suited for roles of **Software Engineer ,Analyst, Associate-ITES Operations**, Based on my **AMCAT** score
- **Coding Ninja** 🔗: **Expert** on Coding Ninja and Achieved **AIR 2865** and college **rank 1** in **Codekaze 2023**
- **LeetCode** 🔗: Tackled **900+** problems at Leetcode with 3.5* and 400 + problems at GfG with **1500+** Coding Score
- Attained **Python Specialization** Certificate through Coursera, showcasing proficiency in Python programming
- Recognized as an **Oracle Certified Foundations Associate**, demonstrating mastery of foundational concepts.
- Recognized for academic excellence with the prestigious **ONGC Scholarship** for B.Tech, a distinguished award presented to the top 1000 students across India
- **Fundamentals of Digital Marketing** Certificate from Google Digital Garage, illustrating expertise in modern marketing strategies.
- Completed Schoolings from **JNV Patna** after a successful academic journey (2012-2019)

Projects

News Application 🔗 | HTML,CSS,JavaScript ,API   **June 2023**

- Developed a feature-rich News Application using HTML, CSS, and JavaScript, seamlessly integrating APIs to deliver personalized global news content as per user preferences

Human Activity Recognition Model | ML,CNN,CV,Python   **April 2023**

- Demonstrated expertise in deep learning and data analysis, underscoring the ability to create high-performance solutions for complex real-world challenges.

Technical Skills

- **C,C++, Java,Python, HTML,CSS,Javascript,ReactJs,GitHub, Data Structure and Algorithms, SQL, OOPs, DBMS, Operating System,Computer Network,CV,CNN .**

Leadership / Extracurricular

Smart India Hackathon 2022   **July 2022-Sept 2022**

Team Leader   *Team chargers*

- Led the team of 6 students guiding towards innovative solutions and achieving selection at the university level

Dakshana India Educational Trust   **Oct 2021 – Nov 2021**

Dakshana Selection test Bihar Core team member   *DAKSHANA VALLEY ,Pune*

- Conducted Dakshana selection test 2021 smoothly at 15 centers in Bihar Demonstrating management and team building capabiliteies.
